### CLARENCE P. WHITTLE, O. D. S. The Horrors of

A reoman's account of torture schick lasted three years; of her struggles against the dreadful disease,

Such tuttering as rheumatism causes the victims upon whom it fastens litself is almost unendurable.

Sufferers from the worst types of this terrible disease will supply the missing horrors in the following story from real file.

Those who writhe under milder forms of rheumatism will be able to imagine the feelings of the tottured victim.

The only justification for making public such heart-rending details is the fact that the lesson taught will be helpful to others, pointing the way to renewed life and health to every sufferer from rheumatism.

The story is told by a woman. Her name is Mrs. Caleb Fenly 1 she live: in St. Paul, Ind.

This is her account:

This le her account t frequent exposure to the weather caused my terrible attack of rheumatism. Damp weather always aggravated it. "My limbs would begin to swell at the middle significant or the swell at the "My limbs would begin to swell at the ankle joins.
"This swelling would begin in the night, at ilmes. I would awake in agony.
"Daylight would lind my limbs purple in color, swollen to twice their natural size, and so racked with pain I could not bear to touch them.
"My right arm and both legs were so drawn as to be almost useless.
"My skin became dry and yellow.
"At times my limbs would pain as though millions of needles were pricking them.
"Again they would be numb and I

could not leel a needle thrust into my licsh.
"I was confined to the house three years, unable to walk nearly hall the ilme.
"After three three slow years of agony, during which I spent probably \$2,000 for treatment and tried a dozen doctors, I gave up hope of any release from pain, but death.
"I was curred, completely cured, by Dr. Williams! Pink Pills for Pale People. They alone caused my recovery.

Williams' Pink Pills for Pale People. They alone caused my recovery.

"The lirst dose gave me appetite.

"After the second dose! slept soundly, the lirst time within a year.

"I sent for a dozen boses. By the time I had taken the contents of eleven boses! felt entirely well.

"The doctor said I was cured. He was greatly Impressed, and since then he has prescribed Dr. Williams' Pink Pills for Pale People for many of his patients."

Mrs. Fenly, logether with her husband, made allidavit to the eaact truth of the loregoing account before Notary P. N. Thomas.

The cure of the severest cases of rhematism by Dr. Williams' Fink Pills for Pale People has occurred in every state in Pale People has occurred in every state in the Union, and its power in ordinary cases

the Union, and its power in ordinary cases is proportionately greater.

These marvelous vegetable pills go directly to the seat of the trouble. They build up a new cellular structure in the diseased parts by eliminating poisonous elements and renewing health-giving chemical forces in the blood.

They are for sale by druggists everywhere; for 50 cents a single box or \$2.50 for hall a dozen.

### TOWN MEETING FINAL.

Sixly Arlicles Disposed of at

Oiscussion, Ochste and Oislogues to the

Weymouth has "gone back" on its record for short and rapid town meetings, and the meeting which closed at the town house last Saturday after three days' session, stands out as the most protracted in the history of the present generation.

The moderator was on time with lds savel and the meeting began with Article he last adjournment. This article was

tion prevailed.

Holles and others: To see if the town will vote to instruct their selection to compel the several corporations owning and using poles and wires along our public streets, to immediately remove all their round poles and replace them with the sawed square

and was disposed of by a motion substan-tially as follows submitted by M. E. Hawes: In the renewal or changing of poles, sawed, square or octagonal poles shall be used; us far us practicable, the several ompables in lown using poles for electric purposes shull make a joint use of the sume and the scientinen shall order the removal

Article 41 which was indefinitely post-poned at the last meeting was taken up tid the meeting voted not to grant sixtle and the meeting voted not to grant sixthe class licenses to all drugglats in town. d. C. Howe moved to take up Article 28 and a sid lee was not fully satisfied with the manner in which it was left at the last meeting; it reduction of \$100 had been All that is necessary for anyone to discuss meeting; in reduction of \$500 had been made on the salaries of the superintendent of the water works and engineer of the jumping station; he did not think any part of the reduction should fall on the engineer and moved that the salaries be fixed at \$100 for superintendent, and \$500 for one given.

Home Magazine. All that is necessary for anyone to distribute on the salaries be fixed at the lieston sunday dominal, is similar to send a postar to the lieston dominal asking for a copy of the magazine. It is this magazine which has attracted so wide attention throughout \$100 for superintendent, and \$500 for one superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$500 for copy of the salaries be fixed at \$100 for superintendent, and \$100 for copy of the salaries be fixed at \$100 for superintendent, and \$100 for copy of the salaries be fixed at \$100 for superintendent, and \$100 for copy of the salaries at \$100 for superintendent, and \$100 for copy of the salaries at \$100 for superintendent, and \$100 for copy of the salaries at \$100 for copy

THE FIREMEN INVITE YOU. The First Annual Concert and Rall, To

Be Held April i5.

Ahigait Smith Chapter, Daughters of the

Revolution.

The Alagarl Smith Chapter D. R., held Its first business needing with Miss 1; A Robbins, Regent, Thursday eventing Mar. 21. The meeting was opened by Miss Smah E. Dunt, State Regent, After a constitution had been framed and adopted, the upplication of Mrs. Albert Avery was read and voted upon, with the result that Mrs. Avery was elected as a member of said Chapter.

It was devided that regular meetings should be held the first Thursday evening of each month from October to June Inclusive, the next meeting to be held with Miss G. A Robbins, Regent, April 7.

Monday Club.

At its list meeting on March 21st, the Monday clutched life pleasure of listening to a becture on "Women of Trenge Ellot," delivered by the Rev. Allen Hichecock of Newburyport, Mass. All of the clergymen of Weymouth had been Invited to attend this becture and it was very pleasant that so many of them were able to accept.

No-License League.

On Monday evening, the No License league held a meeting at the Vongreg dional Church, East Wexmouth, to
torm a permanent "No-License" organization. Henry B Reed of South Weymouth,
president of the "No-License" laugue,
was chosen chairman, and liev. H. U. Alyord of South Weymouth was chosen
secretary for this meeting.

After the question had been thoroughly
discussed and debated by those present a
yore was taken and a norme "Good Citizensida League" was selected with its misshur,
the best interests of the town-people it
large. A committee of five was chosen to
draw may constitution and hydrax, also
to call the next meeting in order to sofonit
such constitution and bydrax a the
committee shall devise. The committee is
composed of Rev. Henry S. Sugder, Rev.

as the county would not bear the whole expenses.

T. R. Fitch thought the town ought not to go to any expense in the matter.

Finall Poter said that 35 per cent. So the appropriations of the town wete in factor of East Braintee. He said three had been enough talk and moved to have a write at two minutes past mine.

Col. Brindwater opposed the petition in nongargament showing that the electric railway was an obstruction to the strength of the period of the point of the period of the perio Plartee O Miller said It was a magerous place and rated accidents.

A. L. Bidarri said that the ledge was good trap rock and it would be used for the streets after crusiding.

Geo. H. Armod said It was not necessary the grant transfer of the

As Letroscope As

Sealiard, and he argued strongly in favor of the towns; acceptance of it without immediated.

And we be seen that once microided by ridding, if it should be no expense to the town. And Mr. Kelly and Mr. French had in argument over the effect of this amendment, Mr. French saying that the town should not pay any part of it is it was for the lowell of Weymouth and other towns. Mr. Kelly saying that the mendment would kill the petition.

Alter E. Avety made a strong plea in favor of the petition systing the distribution of states the town over \$2.30 instead of \$200 in \$880 the the opposition had stated. Dr. T. I. Dearmay spoke in favor of the petition saying he drove by these three or iom faunded times poke in favor of the petition saying he drove by these three or iom faundered inwas a year and it was a dangerous ourness place. It should be done now if it did not east the town over \$2.30 in the favor of the petition saying he drove by these three or iom faundered inwas a year and it was a dangerous ourness place. It should be done now if it did not east the town over \$2.30 in the favor of the petition saying he drove by these three or iom faundered inwas a year and it was a dangerous ourness place in the petition saying he drove by these three or iom faundered inwas. Wellow, the was dangerous ourness place for the vote nitreed by Mr. Kelley. The willoften well as a period of the faundered by Mr. Kelley. The willoften well as a period of the petition of the petition of the petition of the petition of the faundered by Mr. Scallard in a membrane and in a strong plea for the vote nitreed by Mr. Kelley. The willoften well as a period of the petition of the p

whatsnever.

At exactly 205 a vote was taken on didge Prench's amendment, and it was deforted. Then a vote was taken on Mix Kelley's motion and it was varied by a very large mojority. The vote as adopted follows.

Voted—That the lown, by its selectimen, appear in the hearing of the County Porninssieners on April both and look after the interests of the town in getting a satisfied and systematic widening a satisfied site of the systematic widening a formulated street, in accordance with the strictest commy.

The core Country April 205 a voted for the site of the world, with the lown in getting a satisfied by the strictest of the town in getting a satisfied but a happy memory in the livrous of thinks for the strength of the strength of the strength of the strength of the series of the town in getting as satisfied in the bit of the graph memory in the livrous of the strength of the series of the town in getting a satisfied by the strength of the series of the town in getting as satisfied the strength memory in the livrous of the strength of the series of the town in getting a satisfied the strength memory in the livrous of the strength of the series of the town in getting as satisfied the strength of the series of the town in getting as satisfied the strength memory in the livrous of the strength of the series of the town in getting as satisfied the strength memory in the livrous of the strength of the series of the town in getting as satisfied the strength memory in the livrous of the strength of the series of the strength of

The surpess of the season of opera by the Boston Lyric Company assumed the character of a veritable triumph on the opening night last Monday at the Grand Opera House. The enthusiasm character-izing the reception accorded the old fa-vortice of the lovingly remembered assaon at the Castle Square was fairly soul surring and ite almost unprecedented warmth brought tears to the eyes of every member of the company. "Porothy" has aever been more delightfully given in Roston. The stage settings were beautiful, and in wome particulars, realistic. At popular peines and with such famous artists as Clara Laue, Hattle Belle Ladd, Adelaide Norwood, Hattie Arachi, J. K. Murrsy, Richle Ling, W. H. Clarke and Milton Aborn, it is not to be wondered at that this season of opera has been received with enthusiasorby the fortunate music lovers of Boston and vicinity. During the com-ing week Verdi's innuortal grand opera in tive acts, "Il Trovature," will be pre-sented with an exceptionally atroog cast. This beautiful and romantic work remains lished in Weymouth, the tast pour annual and are the abserted in the operation of the area of the greatest favorites in the operation, this is even by any history, and the greatest favorites in the operation, which is the property of the greatest favorites in the operation, and the greatest favorites in the operation, and the greatest favorites in the operation, which is the property of the greatest favorites in the operation, and the greatest favorites in the operation, and the greatest favorites in the operation of the operation. General Court Has Finished Its Third Month.

Passes House-Lopley Square, Little From Dur Porrespondent
The general court has finished the blrd mouth of its labors, and bemins to here that it knows likelf pretty well, and knows something of the task it has on hand. It has thus fur had but two or three big contests, one of them being on whether it should pay \$2000 to s man

whether it should pay \$2000 to a man named Smith, who was injured by as-sisting an officer in making an arrest in fpswich, after having been called up-our in the name of the commonwealth; another on the Boston and Maine stock issue, and a third on the way in which gan should be investigated. From now out the legislative secsions will be longer and the matters of debote will increas in number. in number.

The house surprised itself a few days since by passing to be engrossed a bill to prevent the numufacture and sale of eigarets. The efforts of the committee mipulic health to find out what infinence was behind the movement to pass unfriendly eigaret legislation have airrady been skelched in this cotumit, and at the time the committee reported adversely there seemed to be midoutt whatever that the end of the controversy find been reached for this year, thin Mr. Beede of Lyun took the matter is land, and started out ou a lift hint to pass the bill. Its did not lay thatter in mass the fall. He did not lay out a hig debate, but went here nul there among the menders and one quiet oftermoon moved to substitute a bill for there among the metalers and one quiet of termoon mayed to substitute a bill for the solverse report of the committee. The motion prevailed without helate of any consequence. A few days later the matter was reached, and the bill was given a second reading, ugain without debate. Then the andarlous Lynn member moved to suspend the rule and pass the bill to be engrissed, and that motion also prevailed without debate. Had such action been taken in the secance, much bill to be engrissed, and that motion also prevailed without debate. Had such action been taken in the secance, much bill to be engrissed, and that including would have been surprised, but in the limits, where 26 here have been surprised, but in the limits, where 26. It. Callinder of Baton and W. H. I. Hays of Lawell ure ready to appose such lesislation, it was strange enough. A day later Mr. Hayes moved a reconsideration, on the ground that there was a very small attendance at the hour of engressment, but with a full house the vide to refuse reconsideration was ton emphatic to question.

tion was too emphatic to question.

The matter of imiting the height of buildings in Copley softere, Daston, seamed to be a local one up to the time numings in Copy square, losson, seamed to be a he alone up to the time when the committee on rities decided upon a report. There were a sumber of hills in the committee reluting to the subject, one of them limiting the height of buildings abuilting in the square to 70 feet, and another to 90 feet. There was also one to limit the height of buildings all over the city to 100 feet. After many hearings, some of them in the evening, and annerous perplexing conferences with counsel, the committee determined increport a general bill, limiting the height of all buildings in the romanonwealth, excepting those on lambelonging to the United States, grain elevators, chiraneys, spires, etc., to 100 feet. Hoofs, domes, towers, and other ornamental features may be permitted to reach shove that line, provided that they are approved by city counperson by ordinance delegated to decide such questions. The committee held back the regular petitions and bills referring apecially to Copiey square to find what reception was accorded to the

find what reception was necorded to the general bill.

Of course, everybody in New England who ever visits Boston is laterested in having the leanuty of Copley square pressived, and the general opinion seems to be that 10-story buildings will not beautify it; but it so happeas that the fine Westministers chambers, facility of the same avenue in Trinity clurch, and across a narrow street from it, had already been given a building permit to go 125 feet above the sidewalk before any legislation was asked. As a natural consequence, the question of domages was raised when the bills were heard. The damage might he something of an exemplary nature, to cover possible loss, and teach Hoston to go alow in granting building permits on public squares, or it might simply cuver the loss on material which had been contracted for, but which could not be used above the height of 100 feet. In the heurlaga the question of whether there were proprietary righta in the atmosphere as far above one's house for as 125 feet were discussed of aoms length, and the question whether the law of 1498, which prevented the erection of buildings over 50 feet in height to, it was almost laughed out of court, on the theory that Copley square was not a parkway, nor any of the ovenues running through it. But after the hearings closed, ond the corporation counsel of Boston, A. J. Bailey, who had said

running through it. But after the hearings closed, and the corporation counsel of Boaton, A. J. Bailey, who had said notling during their progress, began in be consulted by the committee and te participate in the debates in executive aesion between the lawyers, there came a change. Although the counsel ogsinat the bill still acoffed, they showed not only a disposition to listen to auggestions of 100 feet, but to linist that whatever won done that parkway limitation should be repealed. This made use of the most interealing features of the controversy. The ounsel included Hon. A. E. Pillisbury, excatoring general, who represented the climiters; Hun. Sherman Hoar, ex-diatrict attorney for the Falled States; ex-Congressinan S. the Palted States: ex-Congressinan Z. Huwman ami several able lawyers fo the bills, who dropped out of sight after the heorings, with the exception of the whief petitioner, J. H. Benton, Jr. chief petitioner, J. H. Benton, Jr. It accemb to be pretty generally agreed that there is no particular use in limiting the lieight of outlings anywhere outside of Boaton, yet the compileations of the situotion assured to govern the committee in reporting that kind of a bill, which did not in any way mention Yopley squars or the 70-foot park limitation or that question of datages. The end of this controversy is yet a great way off.

As to the gas question, which eclipses all others in magnitude of interest, it becomes more clear every day that whatever remedial legislation is reported, if remedial legislation is needed or obtainable, must come from the committee on manufactures. There has been great excitement, and such wors as never was to prevent anything unfriendly being done to certain interests, but the gas commissioners are unyielding in their inslatence that something shall be done to give them the right to interfere if they believe interference is for the public good, and also in urging that there be a full investigation of the transactions of the nilled Boston gas interests, and it is hard to see how the legislature can knote the situation entirely. It was rather a surprise party when the committee on rules of the house, but one member, Mr. SicCarthy of Boston, dissenting, reported in favor of the auspension of the rulea to admit petitions. Light company and the Massachusetta Pipe Line company. These etitions eems to be pretty generally agreed th Light company and the Massachuset Pipe Line company. These petitio were put in by two Roaton members

place of bills of leave, which they could not expect to see unfulled upon so important a subject of a quasi-public nature. The rommittee reported in favor of suspension, because its members felt that remediat legislation could be founded upon them better than upon any other petitions or bills before the general court. The idea was that something could be done as was done in the case of the tay Stats that company a few years since. At that time it was believed that the company had lasted bonds which were against the interests of consumers, to the amount of several millions, and so a till was quased to repeat the sharter, if, within a atipulated time, that issue was not canceled. If an investigation by the committee on maouractures should develop the conditions which are nileged by the gas commissioners, repeal bills might be passed containing conditions that they shall become operative if within a stated time certain obligations are not canceled and certain contracts enuming 50 years are not broken.

The question of prison tabor had been thoroughly considered by the committee on prisons, and the result of their deliberational statist would not be the wiscai thing to employ convicts in bysiding a place of bills of leave, which they co not expect to see admitted upon so

cand across Uape Cod, which might be failure when It was done, or which might bake trouble for the Cope thed ders In the shape of undestrable liminitiants, but that It will be of the greater benefit If the state decides to follow fixed policy of never living convict is hor compete with that of chizens except in the most limited way. For this reason the committee early in the session reported a bill to provide that so tar as possible prisoners should be employed to toaking clothing and other arth less used in state Institutions. Tides of course prevent the use of goods under by free habor to some extent, but does not put for the committee worked out. Screens, Pettigrove's plan to have the prisoners employed in some of the county juils in the work of breaking stone for macadamixing state and county roads. This Will Now Be Louger-tigurel Bill

the work of breaking stone for mac-adamixing state and county roads. This is leard below, and by the bill mathing but hand or foot power can be used. Then a bill has passed the senate which cause from the lands of the comulities, to provide for the use of some of the in-mates of Concord reformatory in clear-ing wild lands in the vicinity of that in-stitution. If this tract is well cleared and becomes marketable there are swamps and wild Isaaks all about which may be cleared in the sume way. It is

and necessives marketable there are swamps and while lands all about which may be cleared in the same way. It is pretty generally understood that free labor is too expensive for and work, so there will be no compellible there, while a distilled service will be done if such land is rechalmed.

Meanwhile, the problem of the state control of county prisons, though reported adversely by the committee for the reason that it does not see any use in attempting to enset such registation in the face of the united opposition of canny officials, is held in abeymore, the bill being on the table, until the general question of state routed of all point institutions, tecause supported by a state tax, is passed upon by the committee has at last closed its heartings, and is now indicate executive so salors of the various questions before h. If course the report of the taxuation commission is the questions before B. If course the re-port of the inxulon commission is the big problem, but there are many related to it, among them the question of highs an armuni state lax for the support of the public schools, the question whether professors' houses owned by educational institutions shall be taxed, etc. The committee will do its best to report a general taxiation measure which can be institutions shall be taxed, etc. The committee will do its best to report a general taxition measure which can be marted, but there is a feeling that he teglistative will make short work of B. There are too many taxition schools. The groupers are determined that the bills to exempt foreign stocks from taxition shall never go through, and probably they are strong enough to prevently. On the other hand, the anti-double toxition people are very strong, and can prevent further legislation against them. There is no subject more thresome to the average legislotor than taxition, and if somebody makes a motion to refer the matter to the next general curut It is pretty likely to go through. This will make many more weary weeks of learnings for the committee on taxition of next year. Phalimach Washibutt of the house and Senator Harwood, the head of the cammittee, are likely to work hard to get something passed in the way of legislation, but while the inheritance has feature of the commission's report does not meet with very much apposition, the rental tax, to place o burden upon householders, is strongly opposed. It is hard to make the average man helieve that he is not taxed double file first pays a tax on his property and then another on its rental value alove \$400, and he naturally sergies that if haying a tax upon foreign shocks is double toxation. It indict as well be paid by the rich emptalis, as by the modest householder.

Appropos of the Cape Fool capital constraint with the proposal in world constraints.

the modest householder.

Apropos of the Unite Fod enoid con-vict labor scheme, perhaps h would not be out of place to say that not only was the committee on pulsons and forfors and public lands opposed to it, but that by one of these mysterious methods which nobody attempts to explain, h became known that the executive branch

matter much more satisfactorily i should certainly be heard on the matte 1105D1

### SAVINGS BANK A Woman's Heart.

The wife of a clergyman tells the story of her suffering with neuralgia of the heart, with the hope that her experience may indicate to others the way to regain

health.

Few bodily afflictions are more territle than heart disease. To live in constant dread and expectation of death, sudden, instant death, with last farewills unspoken, in for most people more awful to contemplate than the most severe lingering illues.

The alightest excitement brings great sulfering and danger to people so allileted. Such was the experience of the wife of a well-known clergyman. She tells her story for the sake of doing good to others. "I leel," she said, speaking carefully and weighing her words, "that Dr. Williams? Pink Pills for Pale People relieved me of a lifetime of sickness and sorrow, and I cheerlully recommend them."

This grateful woman ts Mrs. Warnsley, who lives on West Sheridan Street, Greenburg, Ind. She continued:

"My heart became affected after the birth of my youngest child, about its years ago, "The pain was constant. Frequently it grew to severe I would be forced to cry out." I could not endure any cacitement.

"I could not endure any cacitement." In would increase the pains of would secream and lall down in a state of collapse. In this condition I was helpless.

"Thex peells would come on me at

n thit condition I was helpless.

"These spells would come on me at once, in the street, or anywhere I might be.
"I could not sleep at night. I are very

"The doctors treated me, but the ratifities gave did not last,
"I was a physical wreck, when my eye fell on an item in the local paper describing how Mrs. Evans, of West End, had been cured by Dr. Williams' Pink Pills for Pale People. Her sullering was like mine.
"I hope other sullerers who read this account will have the faith I had when I read el Airs. Evans.
"My husband bought me one box of the pills. The change they made in my condition was encouraging. I look another box t farm bought sia more boxes.
"All the time I galned in health, shrength, hope, nerve force—steadily, surely!
"Before I linished the eighth bex I crased the treatment. I felt perfectly well, and the doctor said I was entirely cured."
To add weight to her story Mis. Wantsley made alfidavit to its truth twiore John F. Russell, a Notary Public of Greenburg. Neuralgia of the heart is only one of many serious evils that grow out of derargements of the nervous system coof the blood. The remedy that eapels impurities from the blood and supplies the recessary materials for rapidly rebuilding wasted rerve tassous reaches the root of many serious clirates. It is these viduoes that have given Dr. Williams' Duk Pills for Pale People their wonderlal curative powers in diseases that at first glance teem widely different.

This famous remedy is 1r aale by all drugglids for 50 cents a boa; or six boses lear \$2.50.

inite.
"Dillerent doctors were called in. They said I had neuralgia of the heart, resulting from nervous prostration. The Ladies of Trinity Church Will Hold Their

### THE LEGISLATURE. Double Sessions and Efforts to Reach Prorogation.

Schole Not Expediting as Last Year Gevernor's Sinff May Be Becognites

Gues of Millia, lite. From Our Correspondent And now come the double rensions am the frantic effort on the part of speaker president, clerks and members to get through before the expiration of the limit of time which marked the prop year methods which serve a gain time in one direction are affect in others by a loss of time somewhere cise. Outside of the discussions of the gas question which will doubtless consume time u which will doubtbee consume time ut the close of the session, the principal reason why no great amount of this will be gallined this year is that there was more business singested, and revery pe-fillon or bill, however langeent in its appearance, must be advertised for a hearing, and listened to with care, for has need a greater number of adverse reports than usual, and it is also true that the judgment of the committees is sustained better than 1s connectines the case. Hills are not substituted, us rule, by the legislature of 1998 withou one very good reason, and it is the de-late which goes with the substitution of a measure, followed by two other pe-rods of debute before engreesment in Other branch, with a consumes time. It is noticeable this year that the set ate is not the body for expediting bus ess that Its predisposor was. It was be work of mouths to get the member the work of months to get the members of lost year's senare to do mything else than to run through the rulendar, and perhaps to put over a few measures. The methods of this year's body are slower. More time is given to debate, and even now the sessions take up all the attenuous, with but slow progress. This is not to the discredit of the senate. If its cause was trured it would polabily be found that there is less buttonholting in the committee rooms and reading room, and that more uncters are argued out on the floor to since so flegislation which cannot be entirely timinated. It is so easy for a member who does not know anything of the merits of his neighbour's bill to say: "The vote for your measure, if you will vote for your measure. If you will vote for your measure. If you will vote for your measure.

vote for your measure, if you will vote for this one of mine." In the house it is for this one of inline." In the house it is aiwnyn the case that more measuresure carried by eloquence in debate, for it would be a finitenit thing to get around among 20 men and explain and phedge. This is easy in the senite, and there have been years when practically ev-

sweet by coay in the search, and there is the coay in the search and the coay of the coay The Life of a Nation.

Golden Wedding Celebration.

Aust tilty years ago, April 2, 1818, in the First Methodist charch of East Weymouth, by they Mr. Harhwithen passive, Mr. Willium P. Hiee of East Weymouth, and Miss Ann Eliza Thayer of Holbrook were married. On Saintilay last, the liftieth auniversary of their marriage, Mr. and Mrs. Rice quietly observed the event at their home on Linden Place, surreunded by the immediato family only.

Mr. Rice is a notive of Weymouth. He was born on Middle street in 1828, the son of Mr. and Mrs. William Rice. By trade Mr. Rice is a maston and was actively engaged in his business until recently.

At the outbreak of the Civil war, when President Abraham Linceln first called for volunteers, Mr. Hice was among the first to offer his arrivers for Ids country, and emisted in Co. If 35th Regiment. Mass. Volunteers. After having served over three years, he was honorably discharged. Mr. Rice is an active member of Beynnids Passible of Despit Council, and Prigrim Lodge, Knights of Henor.

Alts Rice was before her marriage Miss Ann Eliza Thaver, the daughter of Mr. and Mrs. Rice was better her marriage Miss Ann Eliza Thaver, the daughter of Mr. and Mrs. Rice was born in 1828 at Holbrook, and elemented in the schools of that town.

Both Mr. and Mrs. Rice, although well advanced in years, are still active in their Golden Wedding Celebration.

Stopped Short of Insanity.

> A young woman rescued in the nick of time from a fate more terrible than death. Her friends had despaired of saving her.

On the verge of insanity, Riss flattic King, of thaca, N. Y., was checked in the course that was taking her rapidly to the grave, and restored to her friends Is sound physical and mental health and restrict homines.

lng young woman, not yet eighteen years old, is so great that when the trappearril in public her friends could hardly believe the evidence that their eyrs clearly showed the evidence that their eyes clearly showed them.

Miss King became girally weakened by a consplication of physical troubles, and was looked upon by hir lifends and family as one doomed to early death. Her strange cure as follows:

"Hattie lirst complained of dizziness, which steadily giew worse.

"She suffered with nausea and attacks of vomiting could keep but little on her stonach.

"Kidney disease attacked her. She was gale, thin, and her blood, when a drop was

"Kidney disease attacked her. She was pair, thin, and her blood, when a drop was drawn by the prick of a needle, was almost as colorless as water.

"Her heart was alfreted. She would requently faint from the slight exertion of issing from bed or from a chair.
"She coughed continually, so that her friend; leared she was consumplive.
"She lost flesh rapidly; would be conlined to her bad for two or three weeks at a time.

itad no realization of whal she was doing,
"We leared she would have to be taken
to an asylum for treatment.
"The best physicians and many toprietary steines lied to do her good.
"We had cead of wonderful cures by
Dr. Williams? Pink Pills for Pale People,
and at length decided to give them a trial.
We purchased some at the drug store of
White & Burdick, in fihaca.
"Soon after she began taking the pills
Haltie began to Improve. First her headaches disappeared, then the attacks of dirziness ceased and the cough likewise disappeared. One after another the alarming
symptoms lett her.
"She gained stradily in weight and
strength. The change for the better in
body and mind is almost incredible. In
all she has taken nine boxes of Dr. Williams? Pink Fills to Pale People, and row
she is in perfect health."

Mr. Burnett swore to the accuracy of
his account, formally, before C. R. Welcott, a Notary Public.

When the blood is weakened and lacks
the elements needed to build up new tissues, body and mind both sulfrr, as in the
case of Miss King. All of the many diseases due to derangements of the blood
and nervous system are cured by Dr. Williams! Pink Pills for Pale People. They
supply in vegetable form the elements that
are lacking, and restore perfect health.

All druggists sell Dr. Williams! Pink
Pills for Pale People. One box for 50
cents, or six boxes for \$2.50.

Oone in the Best of Workmansley Post Citi e Address Box 62, Weymouth.

Lost Years of Youth.

> James II. Wallace could have paid \$3,000 for the information contained in the following lines, and been a gainer by the purchase. His experience, which cost dearly, given freely to others.

If the information contained in the following lines had been in the possession of James H. Wallace, of Detroit, Mich., he would have saved more than \$3,000 and would have saved more than \$3,000 and would have enjoyed live years of health and happiness, instead of forture.

Mr. Wallace is an expert accountant and bookkeeper, in the office of C. A. Haberkorn & Co., Detroit. He lives with his family in a prelty home at 240 Sixth Street. He was marked by niisloriane from his birth, having inherited scrolula.

Sift a young man, Mr. Wallace scented, as he told his story, to have a long lite of vigorous hralth and uselulness before lim. He tells about the remarkable incident that led to his complete restoration as follows:

"The first physician soon said I had a constitutional blood disorder, and by constant treatment and diet it might be cured!

"Blood purifiers and spring medicines made the cruptions more aggressive and opinful. In 1888 I was a fessival looking

made the eruptions more aggressive and painful. In 1888 I was a fearful looking sight! In Lad, repulsive. "Large ulcers on my limbs discharged "Large ulcers on my limbs discharged continuously.
"I frird everything: took medical baths; went to Medicine Lake, Washington; spent over \$3,000 for medicine and medical service—all wasted money, time and energy." My recovery seems like a miracle to me. Its beginning seems like romance. It was as follows:
"One day in the fail I read a newspaper article about a eure effected by Dr. Wil-

liams Pink Pills for Pale People. It Interested me, but I quickly Jorgot It.

"That afternoon while moving some books I broke an ulter on my leg and nearly lainted.

"The pain made me sick. I stopped work and dropped into a chair.

"Then I again saw that newspaper article. The paper was lying on the floor, the article exposed as though forcing me to take warning.

cite. I he paper was sying on the more, me article exposed as though forcing me to take warning.

"I read it through again carefully and decided to give the pills a lair Irial. The entre described in the paper was like my own case.

"I sent for a box of the pills at once and took some that afternoon.

"From that day I began to mend.

"When one box was limished my Iriends remarked upon my improved looks.

"Eight boxes cured me completely—there was not a sore left on my body."

Mr. Wallace made affidavit to the truth of his story before Robert E. Hull, Jr., a Notary Public.

Thousands of similar cases illustrate the unequalled power of Dr. Williams' Pink Pills for Pale People over disease of the blood and nerves. No blood disease has been discovered that can withteand the action of their powerln! vegetable ingredients, which harmlessly expel the imprinities that cause disease. All druggists sell Dr. Williams' Pink Pills for Pale People; one box 50 cents, six boxes, \$2.50.

> By An Ahundance of Corroborative Evidence.

> man transmars, Wasswitt and trawins, and in hosters the promptness the chair-man opened the meeting by asking Judge Flint, the cound for the petitioners to open the hearing by reading the politica and order, after which the Commissioners went

were sworn.

Andge Flint made an opening address, covering the desires of the putithmers and containing many strong reasons for the

when the town voted in Layor of a syst

should be done. He had not nuderst

uni narrow place. A. L. Tinhart testifical in corroboratio of all that had been said and thought the street is front of Miss Jordan's should be made whier as teams, and bicycles offer turned into his yard to wait for others

up for fear of an accusant. The teatment to attending the two doctors who had been smashed up there about a year ago and were severely injured. William Orr testified that on Thursday, a cold and cloudy day, when there was no pleasure tracel he had counted the leans

new than then.

(lep. Fogg gave strong testimous from ties trong gave strong testimony from the standpoint of a heavy teamster and told how he had been in danger there several times when carrying heavy leads; he always dreaded that corner and hill as he could not stop a load of many tons which he often had and had several parrow

of hieroics that were seen there on summer evenings.
Charles T. Crane, treasurer of the Savings Hank added his testimony and made many points in favor of the widening. He walked by the corner, four times or mute daily and had seen many narrow escapes from collision and teams drive on to the sidewark repeatedly. Had also noticed how frequently teams were standing at one or other of the stores, partially blocking the way.

Ansel O. Clark, chalrman of the selection, said he lived in the South part of the town and was not very familiar with the travel on that street. He was selections when the former petition was acted upon.

at most 50 lect would be sufficient. debtamithe tas rates of several years past, showing that the rate had dropped about \$5 on a thousand from what it was three or four years ago.

Strong Case Put In by the Pe-

Pursuant to notice the County Countb-ducers' hearing came of on Saturday at 10 o'clock in Kelley's hall, East Braintree.

All the commissioners were there, Chair-man Blanchant, Wadsworth, and Hewins, out and viewed the street under consider ation. This done the witnesses in layor were sworn.

store stands. The judge know his case well, he being the connect some eight years ago, when the same improvement miwnsked for was attempted, and when the Commissioners, Instead of cutting of the corner as asked for, ordered thosuiting off of some of the dedge on the opposite side on Quincy scenum which did not reievo the situathor materially.
Town Clerk of Braintree Henry A. Monk

when the town voted in layer of a syste-matic widening and intuished a certified copy of the vote.

John V. Scollard, the lending petitioner was the next witness and testified to the fact that the corner was alvagerous to pub-lic travel, that the stort was very narrow, that he had no personal interest except for the public good as he lived some allatance from Commercial street, that he considered it serv imademate for the large travel •+•+•+•+•+•+•+•+•+•+•+•+•+•

whatces near by, a large part of which was certed through the nerrow place in question. As the leading petitioner some eight years ago he had thought it needed to be widened thou and he still thought it how at that time the will of the people had how at that the the will of the people has been defeated and the immey then ex-pended had been spent on the apposite side from what the petitioners asked for which had malo Quincy avenue a better street but had not relieved the dangerous

pass.
Dr. G. D. Hullock said he drove by the

impority; he was one of the former p tinners: thought there was more trav

now than then.

A. E. Avery was a good witness for the petition and made a strong argument in favor. He thought the atreet in Iront of Mrs. Holsart's was in great need of repairs and was dangerously narrow; he corrobarated much that had been said about the idd brick store corner and added the weight of his column that it should be made suitable for the great travel at that

which he often had and had several narrow escapes from crashing light carriages.

Night Officer Diagna told of the many quick pull-nps he had witnessed there in the night when teams had come together around the corner, it being limposalibe to see. He also testified to the great number of hieroices that were seen there on summer evenings.

Charles T. Crane, treasurer of the Savings Hank added his testimony and made many points in favor of the widening. He walked by the corner, four times or mune

when the former petition was arted upon He thought that from the evidence given there seemed to be need of a wideoling and thought that the electric road had made the place worse than hetere. Aithough Mr. Clark was very conservative in his re-plies he was evidently in sympathy with a proper improvement, but thought it not necessary to make a '00-foot street all the way to Union street. Front of Miss Jor-dan's and Mrs. Hofort's he thought 45 or at most select would be a market as a clark challe a very good impression from his evident attempt to be fair to the petitioners and yet guard carefully the interests of the town. He asswered question from Judge French regarding the town

Braintree, gave a story of the difficulties of light driving as he used his bug y to drive back and forth to his humo in Weymonth. He often had to pull up at that point and had had some narrow escapes when he prided himself that he had driven through very nerrow holes between two teams, or a team and a rer.

Other corroborative testimony was given and many more wilmesses were present for the petition who did not speak, because there seemed no need of more repetition.

During the testianony for the petition, buring the testianony for the petition, and the seemed ho need of more repetition.

When the opposition was called for Mr.

French arose and said be appeared there.

When the opposition was called for Mr.

French arose and said be appeared there. When the opposition was called for Mr. French arose and said be appeared there as an individual, a citizen of Hraintee, but thought be represented the wishes of a great many citizens of the lown of Braintree. He admitted that the proposed interest the lown and thing if it did not est the lown anything. Taxes were high and it was not right to burden the appears of such an improcement. It said that while the vote in facor of the whilening at the town meeting was a large one, that it was easy to get the public to sign petitions and to vote for things that shift interest the accrage voter much in taxes.

petitions and to vote for things that shift intreast the accetage voter much in tases, and he thought the tax payers of the town were opposed to any expense in this matter this was a public improvement that had torn the superstanding the points made and argued that this was a public improvement that had torn the superstanding the points made and argued that the opposed of any expense in this matter that any or the opposed and asked the composition of the opposents and asked the composition of the control of the county should have a thought the title opposition and if they thought it allows and if they thought it allows to act would have their engloser survey and lines on.

The only other opponent of the pelition !

In the tax valuation of property the ottes present the following showing Rustin, \$281,289,955. Philadelphia, 8401,028,552. St. Louis, \$311,026,810.

Chicago, \$211,176,825. In bank clearings hast year which surely a a fair test of the luminess of the effice diswas the way they stood. Boston, \$1,551,116,149 Citiengo, \$1,538,505,851 Pidladelpida, \$3,383,903,806

St. Lambs, \$1,182,015,146. Thin we see that in everything except population Boston is now the second city of the United States and when the talked-of scheme of Grenter Boston shall be an ac as the second city in population while then her valuation and banking lustiness will be still further aliend of all cities but New

that Roston may be generally accorded the rank that is justly hers. Her area as nu incorporated city is so small, and the immense increase in loadness—the business part of the city, being rapidly extended into the residential portion - is pushing the residents out into the suburbs that the population of Boston proper is likely to be less rather than more as years go by unless she adds to her area the territory. That she is peopling with her overflow.

ense in weight and size and take on a ell-rounded appearance if should be done y adding to his muscle rather than to in-case greatly the amount of adipose sub-

buly well rotted manure should be a phed in the spring, as the ammonta in treet monore will burn up the plants when the ground becomes but. 1.1.1 A piece of ground that is plowed a quaded and then worked very fine with

spaces and then worked very flue with barrow or rake will give belief result without manure than ground that is hear in manured and not worked fine. On bill the bartle is won in the preparation of the soil for the sred. In fact, we must think still that the home made manura should come first, and then the use of fertilizers of such kinds and in such quantities as the farmer will be sure con be used with profit.

Never put the same kind of a crop on . Beld Iwa years in succession, but allow as long an interval as possible. By so doing not only is the liability of disease lessened, but the land will more readily improve in lettility and produce larger crops

It will be time enough to complete the planting when the apple trees begin as bloom. A late frost will destroy all tender plants. Food nights are also destimental to the growth of such plants as squash, beans, melous, tunators and epair. The ground must be some before the plants. ground must be wirm before plants will hinke headway in growth. 111 After the orchard is planted, for at least

en yenes culticate it thoroughly, keeping sown all weeds. Corn and putators may SHORE HOTEL. e grown each year, II the ground is the aughly manured. There must be enough

Bowen House, towns, stuble, agra band, and all the leveled down with a barrow. If the rows furniture, will be sold at a very low price are well manured and the pointoes planted deep the seed will be protected from severe cold, and as soon as spring fairly opens they will make a good start and grow

Now is the time to watch the curran Sow is the time to watch the current bushes; a few warm days will develop the cutrant worm and be will put in his work early. An easy and simple remedy is a light solution of helicure well sprinkled over the young foliage.

Adjust the juming to the hubit of growth of the given variety. In sprending varieties have the shoul grow upright; in varieties already too apright have the lank o as to throw shoots to the side. While It is wise in the second spring to head back the short do not carry this practice to excess in the peach tree for fear of Jorning too thick a head.

111 Thackeray tells of a lord who never saw a variant plana on his estate, but he took an arora out of his purket and dropped it in. Never lose a chance of saying a kind word or of doing a kindly act. t costs nothing.

111 The insect known as the apple-leaf bolder may readily be killed by thoroughly spraying lufested trees or nursery stock just as soon as the young luserts hegin to batch, and before they have had thue to fold the leaves to any considerable extent. This spraying should be those just as the analytic leaves are misching.

111 properly cured for, will supply the actual necessities of a good-sized family. In this way food is supplied in a fresh and healthy condition, and is to be preferred to doctor's bills, which sometimes are occasioned by a use of the partially decayed Iruli found in fruit stalls of city markets.

Whatever may have been the mistakes of winterer may have been the mistakes of winter feeling of wark animals, they are of the past; the thing moves to be upon the roun ration and beel more ultragenous foods, as outs, shurts, bran, etc., to connec-tion with good bay, tiond oats are untion with good lany, thoud oats are un-consided for horses at work, though it is ad-visable to feed some corn and other grains in connection, letting outs form the basis of the ration, for horses are like men in that they appreciate a variety of food.

thee, the wonder worker, that unbles wesh men strong. All druggists, 5% or \$1. Cure guaran-leed Hooklet and sample free. Address Sterling Remedy Co., Chicago or New York.

ting one from start to tinish. The lar esting one from start to thisle. The bro-graph will have new views, as mund, and it is worthy of remark that the interest in this wonderful invention is attackly on the in-crease, and the aong-sheet chorms will reu-der for the last times, "I's Park, but I's no Fool," for which Pranist Fitzgibbon wrote the music. The famous actress, those Cugh-lan has been broked to play over the Keith circuit appearing in Roston the weeks of May 9 and 16. She will be supported by a small company of players, and piecestic.

"A word to the wise is sufficient," and a word from the wise should be sufficient, but you ask, who are the wise." Those who know. The oftrepeated experience of trustworthy persons may be taken for knowledge. Mr W. M. Terry says Chamberlaiu's Cough Remedy gives better actuated in the analyst of the market. He has been in the drug business at Elklon, Ky, for twelve years; has sold bundreds of bottles of this remedy and nearly all other rough meelches manufactured. other rough medicines mannlasti which shows conclusively that Chan lain's is the most satisfactory to the per and is the least. ### A Young Girl Saved!

So remarkable are the facts; so strongly are they substantiated; so important are they to all who are suffering, that there is no necessity of publishing them under the disguise of news or other false colors.

Saved her when emineol physicians failed when the pharmacopoeia was eahanted; when science acknowledged deleal. The gratitude of the lather overbalances

the natural conservatism of the man, and he tells the world his story that others he tells the world his story had others may be benefited.

"At the age of fourteen" said Mr. Trost, "we had to take our daughter from school owing to her health. She began in fall away and became pale and languid. She was so weak she would fall down every time she lried to walk use protect. "When she was filteen she weighed only ninety pounds. "She was actually fading away. "Several physicians sald she might oul graw II, but that it would no doubt termi-

grow II, Dut that II would in a second make in consumption.

"She was growing weaker every days we concluded we must lose our child.

"The medical profession had exhausted their skill, we had tried all the well known remedies. Finally I bought a boa of Dr. Williams' Pink Pills for Pair People and

took them home to her. Before she had taken ali of the first bos we noticed a change for the better.

"She gained strength daily.

"Every one noticed the change! I bought iwo more boxes. When she had laken them she was strong enough to icave her bed, and in less than su months was something like hersell.

"To-day she is entirely cured, and is a big, strong, healthy girl, weighing 130 pounds, and has never had a sick day since.

"I know Dr. Williams' Pink Pills saved my daughter's lite and I am glad to re-

"i know Dr. Williams' Pink Pills saved my daughter's lile and I am glad in recommend them to the world."

The Iurther verify this statement Mr. Trout made allidavit in his routhlotness before Robert E. Hull, Jr., Notary Public.

The last decade of the nineteenth century has been marked by some nit the most important discoveries in the history of the world. None have done more to benefit mankind than Dr. Williams' Pink Pills for Pale Penple. Some of the cures effected by this wonderful remedy almost equal the miracles of hid. Diseases long supposed incurable have ruccumbed to their potency. The paralyzed have walked: the weak and ailing have stepped from their beds well and strong. The evidence is irrefulable. The fact stands supreme that Dr. Williams' Pink Pills are the greatest blessing ever bestuwed on sulfering humanity. Dr. Williams' Pink Pills are sold by druggists throughout the land.

### A Letter from MRS. ALDEN A. THORNDIKE.

SHANGHAL, Match 20, 1898.

A proper description of China should be A proper description of the beautiful harbor of Hong Kong. Prevedent clearly shows this, but truth and order would both the sacrificed were I to follow where others lead. Truth compels me to admit that the harbor simply tid not, at first, exist for me, while only demands that I begin with the Monsoon, which meeting us live hundred miles out at sen, was plainty the first of things Chinese with which we had to do. The anchor had dropped with its usual splash, dragging after it the groading lengths of protesting cable, before, dizzy from a twenty-four hours interview with troin a twenty-our means interview with that ment obsurate of creditors. Neptine, I emerged once more into the outer sir, After having passed across most of the old gentleman's domalas with a smile and a jaunty sir, under the hupression that I was e personal favorite of his, I discovered my o personal tavorite of his, I discovered my mistake, and was obliged to pay unto the uttermost, principal and interest both simple and compound. Let mi one imagine it possible to slip around this world and in some mysterious manner

netwesh picturesqua phore, as we dis-netwesh next morning. Hills everywhere, the highest of them keeping guard over the town mestling at its foot and receping lovingly up its side. Most of the streets begin at the water's edge, and after a securingly fair start, come to a subtlen end among the greenery of the mountain. The English resulents have the Peak as it is called, and it is the height of every one's mbition to mid another to the charming homes airgady smiling down upon the lovely seems between the interest wings wide monster hotel on the amount swings wide hospitable doors to gather them all in,—bu-they would-be owners of palatial villes still on paper, or the strangers within the

scarcely of it, is so uncertain enigona to the rest of us. But their there are the people? Swarms of them? One need not, however, go late the busy crowd of dying clekshews, flower heys, fruit boys, women, dressed almost precisely like their himbands in while blue cotton tronsers and thowing blouses, and hung little children, bir one's introduction to John Chibadan. One meets him "en masse" in the dining room where two hundred of him are rushing about to long white lines roles like butch-er's trocks, with pigesails of authelievable scarcely of it, is so much an enigma to the er's frocks, with pig-tails of unbelievable lengths. For all the world like a graven yallow image, yet quiet, quick and clean, "John" is an ideal walter. To be sure the "No speckee Englis," one must order the dishes by munker, rudess one be an udept at 'pigeon" English. This consists in omitring all superlitions, words and eacing the remainder. For example, I order mumber 7, which is roast beel. Having been de-prived of this article of foot for three thing else on the menn, so, Oliver Twistthing else on the menn, so, Oliver Twist-like, I desire more. This time, I make sure of the molivibed attention of our particular image, and pointing to what doesn't remain of the former serving, say, "Allee sames beel." Image undersuit de-parts. Presently beef materializes. But 111 were to say, "Bring me some more beef, please," it would turn out suffiel pigeon, or fricasseed call's feet, if not ice cream. In the shops (and, oh, the shops deserve a letter to themselves!) It is just

ery fund of these smiling faced men, obso he arricles behind their counters—won-erful things, exerved ivories, silks, encobleries, china, broazes, scarcely two alike, and many I suspect from artists und artisans lattiny villages far Inlami, who have handed shown the secrets of their craft, from father to son, through genera-

Going ashore was impossible for an hour or two until our friends, below, discultanked two muttour from a below discinlented into the hundreds of grabby little sampans which bumped and jostled as while they pushed and crowded, and tote at each other's throats, as It were, in a mad rush for passengers. Whole families, thousands, live on these tiny locals, are born,

ive and die and are thrown into the vive They are the lowest of the low, and to China that depth is almost masonaled. At Hong Kong they must maso their sampans so many yards from the shore at night. erhaps l'antou might be a sater place i the same rule held there. As It is, e is safe outside the city gates aber fivclock at night.

It was with a delightful sense of real ad-

venture, with a spice of canger in it, that we stepped into a dirty crowd upon a dirty we steeped into a firty crown upon a cirry jetty, and quickly taklog our seast in chairs hang on hamboo poles, were lifted to the shoulders of our coalies (three for each of as) and began our exploration of Panton, under the direction of our guide, Alt. Cum.

filter through.

We visited the temples, the schools, the colleges, the shops (once inside, the latter were decidedly attractive) and the prison to see the poor creatures wearing the terrible wooden cultar, which is said to kill a man if worn three months. We had our luncheon in the Viceroy's Picule "Har-den," a cambling structure in the milist of queer little artificial lakes and gardens, be-bind high walls. Owing to the weather, it being hittority cold and a drizzing rain, we had the place to ourselves. The cosy coon we selected, with its carved furniture, hungs and vases, seemed a baven indeed, and whea to our plentful store of cetables was added a tiny wadded baske). seat in from some mysterious source, con-taining three little cups and samers oul a plump little teapot vullantly puffing fra-grum steam, our happiness was complete. We climbed the ramports for a view of the calt swept country, that mysterion

known regions beyond.

We publ an interesting visit to the Five
Humbred Hendi, disciples of Tunbilan, who
sit and stand in gibbel rows forever, while sit and stand in glided lows forever, while an infinitely, or fearing, or worshipping, public, place little increase sileks before their glided noises. The most interesting of the Five Humbrel was the geal "who placed the moon in the sky." This personage had one erm greatly elongated for the purpose. It ran up somewhere towards the roof, the moon wasn't visible.

Also we went to the Tepiple of Tortures, where brisk little wooden devils were industriously at work over woe-begone wooden ettigles, bolling some in all, alching others, crushing, beheading, stretching, flaving, impaling the rest. This seemed to

hit when their turn comes to receive their been, please, "it would furn out sinffed pigeon, or fricassed call's feet, if not ice cream. In the shops tank, oh, the shops the same, the more "pigeon" and the least English the better. Here however the images are many degrees more estable, are better clothed and better fed. These genifemen are respiculent in dark red silks, with pale silk undergaraients, and esquisite brocaded troiners. We grew the grey and esquisite brocaded troiners. We grew the same and sequisite brocaded troiners. We grew the same and the same an

## BOSTON INDUSTRIAL EXHIBI-

it is Prumised That it Will Exect Anything of the Kind Ever Given in New England.

Show as One of the Principal Festures The twentleth trienubl exhibition of the Massachusetts Chwitable Mechanics Association will be held in their minimoth building, Huetington avenue, during the months of Detaber and November next. I mounts of Deputer and November neat. It is primited thus far in advance that this exhibition will far surpass anything of the kind ever given in New England, as the opt livations of invesiors, manufacturers and others engaged in Industrial develop one is fately safe with a well-known guile, One is fately safe with a well-known guile, for they have the reputation of tighting like itigers in the interest of their charges and the interest of it. Wherever we penetrated, and certainly there were many vite and evil places, we met no opposition. 21 any remarks flew over our heads, but these we could not understand, so they were home-weight the interest of the samples of the delta of hidsery, skill and art, and that the public desire to see samples of white events in improve the condition of the could not understand, so they were homeders in the inc.

fowever, if there was dauge,
aware of it. Wherever we penetraled, and
ecritally there were many vite and evil
places, we met no opposition. Plany remarks flew over our heads, but these we
could not understand, so they were home,
less. Eight hours were we in those chairs,
and the sights we saw dely description.
The town is a labyrinh of six fest alley
ways, which turn and twist, up steps and
again, ever bridges above canals
were, and past heaps of localwork with and everything that bends to a
more economical way of living. It is with

The Week.

Wer is no longer to be avoided, and busness is somewhat contracted by bankers opprehensions. It is hardly to be supposed that seventy-three utilities of Americans will want less food, beer short Americans will want less food, beer short Americans. rom The Criterion.-Published by the Senior Middle English Class of Thayer FROM THE BELFRY. Lake a strip of silver the river lay Hetween the meadows brown, I stood alone on the hellry's height, Looking down on the distant fown Above the dist hill's darkening crest. The sunset spiender burned, terlay was making to its emi The old world onward turned The fading glow on the western rim Declared the reath of the day. The gray rhak deepened into black— Hackness was on free way. The winter eight came on apace, To the sky a tew stars shone. The foozen breath of the rising wind Came to me on the tower alone. And I thought of the close of this nortal lit.
When the cheefful daylight ends,
And we slip away into the unknown dack.
Whither each human soul tends. In the light of life our hearts are strong. And death can give no dread, that when the dark of the last long night Approaches with steady tread. I wonder then, il, as the life-blood ebbs, And the soul stands on the brink I il the measureless, infinite, unknown night The strength of the heart will sink And the soot pass similering out aione. Into the gloom of its flight, Lake one wandering. Iar in the cold and dark Lost, without guidance or light.

> At a moment when war and all its op-phase... and aspects have an especial in-terest, no doubt the first thing turned to in Pine Carriage Painting a specialty. McClure's Magazine for May will be Buil- All work called for and delivered free

A Letter from

So remarkable are the facts; so strongly are they substantiated; so important are they to all who are suffering, that there is no necessity of publishing them under the disgnise of news or other false colors.

A Young Girl

Saved!

Few men in Detroit Reaf Estate Circles are better known than Frank B. Trout. None place a higher vafue on their reputa-Mr. Trout has reason to believe in the potency of Dr. Williams' Pink Pills, and he does not hesitate to say so.

Dr. Williams' Pink Pills saved the fife of his daughter.

Saved her when eminent physicians failed; when the pharmacopoeia was exhausted; when science acknowledged defeat. defeat.

The gratitude of the father overbalances the natural conservation of the man, and its fells the world his story that others cray be benefited.

"At the age of lourteen" said Mr. Troul, "we had to lake our daughter from school owing to her health. She began to lall away and became pale and languid. She was so weak she would lall down every time she tried to walk a typported.

"When she was fifteen she weighed only ninety pounds.

"When she was filtren she weighed only ninety pounds.

"She was actually fading away.
"Several physician said she might out grow it, but that it would no doubt terminate in consumption.
"She was growing weaker every day t we concluded we must lose our child.
"The medical profession had exhausted their skill, we had tried all the well known remedies. Finally I bought a box of Dr. Williams' Pink Pills for Pale People and

took them home to her. Before she had taken all of the first box we noticed a change for the better.

"She gained strength daily.

"Every one noticed the change: I bought two more boxes. When she had taken them she was strong enough to leave her bed, and in less than six months was something like hersell.

was something like hersell.

"To-day she is enfirely cured, and is a big, strong, healthy girl, weighing 130 pounds, and has never had a sick day

pounds, and has never had a sick day since.

"I know Dr. Williams' Pink Pills saved my daughter's file and I am glad to recommend them to the world."

To further verily this statement Mr. Trout made affidavit to its truthlufness before Robert E. Hull, Jr., Notary Public.

The last decade of the nineteenth century has been marked by some of the most important discoveries in the history of the world. None have done more to benefit mankind than Dr. Williams' Pink Pills for Pale People. Some of the cures effected by this wonderful remedy almost equal the miracles of old. Diseases long supposed incurable have succumbed to their potency. The paralyzed have walked; the weak and alling have stepped from their beds well and strong. The evidence is irrelutable. The fact stands supreme that Dr. Williams' Pink Pills are freig greatest blessing ever bestowed on sullering humanity.

# MRS. ALDEN A. THORNDIKE.

8HANGHA1, Murch 20, 1898 A proper description of China should be-gin with one's impression of the beautiful harbor of Hong Kong. Precedent clearly shows this, but truth and order would both be sucrificed were I to follow where others les secrificed were 1 to indow where others lead. Truth compels me to admit that the harbor shipply did not, at first, exist for me, while order demands that I begin with the Monsoon, which meeting is five laundred miles out at sea, was plainly the flist of things Ublinese with which we had to do.

jamity air, under the impression that I was a personal favorite of his, I discovered my mistake, and was obliged to pay muto the attermost, principal and interest isoth simple and enupound, Let no one imagine it possible to slip around this world and in some invarious manner elimbethe vigilmace of the old sea god. Legitimate taxes must be puld, and storms,

Signt that drawn her mantle softly over the little islands, the grim forts and the green bills rising abrupily from the water, which make Hong Kong one of the loveli-

nothing about Hong Kong to suggest that one had alighted at the threshold of that strange Empire, which, in our world, but scarcely of it, is so much an enigma to the rest of us. But then there are the people: Swarms of them! One need not, however, go into the busy crowd of dying tickshaws, flower boys, full boys, women, dressed ubout in long white linen roles like lattch-er's frocks, with pig-tails of unhelicvable lengths. For all the world like a gracen ellow hunge, yet quiet, quiek and clean, "John"ls un ideal waiter. To be sure he" No "Joint' is an ineal water, to be sure he No-speakee Englis," one must order the dishes by number, unless one be an adept at "pigeon" English. This consists in out-ting all superthous words and esting the remainder. For example, I order number 7, which is must beet. Having been de-prived of this article of lood for three months it oncode.

tine traces the band of the pirate here. Going ashore was impossible for an hour or two until our friends below disembarked but the handreds of guildy little sampans TION. which bumped and justicious while they pushed and crowded, and tore at each

other's throats, as if were, in a mad rust other's throats, as if were, in a mad rust for passengers. Whole families, thun-saols, live on these thry boats, are form, live and the ainlare thrown into the river. They are the lowest of the law, and in China that depth is almost unsommisd. At Me. B. F. Keith to Provide a Big Free llong Kong they must more their sampans so many yards from the shore at night. Perhaps Canton night be a safer place it the same rule held there. As It is, no our is safe outside the exty gates after five o'clock at night. Show as One of the Principal Festures.

us) and began our exploration of Canton, under the direction of our guide, Ah Cann. One is lairly safe with a well-known guide, for they have the reputation of fighting like The town is a labyrinth of six feet alley ways, which turn and twist, up sleps and down again, ever bridges above canals green with slime, and past heaps of loathhouse fronts, while fittly rigs and tatters of straw matting stretched overhead keep out what small portlen of pure idi might

the was a picture spine place, as no discretified and the place to the highest of them keeping goard over the town nestling at its foot and eccepting hivingly up its side. Most af the arterts to gin at the matter's relige, and after a scenningly foir start, come to a saniden and mong the greenery of the mountain. The English residents have the Peak as it is called, and it is the height of every one's ambition to add another to the charming homes already smilling down upon the lovely series heneath. In the meantine a monster hotel on the summit swings wide monster hotel on the summit swings wide monster hotel on the summit swings wide hospitable doors to gather them oil in,—be and when to our plentiful since of entables was abled a tiny washed basket, with a constructed on the gall to construct a from some mysterious sameers and a first will be some for Mr. Kelth will do commut be explained from some mysterlous source, constructed on the gall theory to do and a distribution of the single from some mysterlous source, constructed on the gall they are to be some for which purpose he will it up Paul I very Hall, a beautiful grantment, that I respectly been constructed on the gall theory of the Mechanic Hobbing. Just very Mr. Kelth will do commut be explained from some mysterlous source, constructed on the gall theory of the Mechanic Hobbing. Just very Mr. Kelth will do commut be explained from some first washed, but that it will be some deel, and when to our plentiful since of deel, and when to our plentiful since of establics was added a tiny waided basket, sent in from some mysterious source, containing three little cups and sameras and a plump little teapor valiantly puffing fractional steam, our happiness was complete.

The second steam, our happiness was complete.

alt and stand in gibled rows forever, while wide blue cutton tronsors and flowing blusses, and humy little children, for one's pathic, place little incense sticks before their gibled uses. The most interesting of meets dim "en masse" in the diluting room where two hundred of Idim are rushing placed the moon in the sky." This persuage had one arm greatly changed for smage had one arm greatly changed for sit and stand in gibled rows forever, while praces the moon in the sky." Into per-surage had one arm greatly changated for the purpose. It ran up somewhere towards the roof, the moon wasn't visible. Also we went to the Temple of Tortures, where brisk little wooden devils were in-

where misk in the woolen devils were in-dustriously at work over woo-begone wholen efficies, boiling some in oil, slicing others, crusking, behoadlog, stretching, itaying, impaling the rest. This seemed to be a favorite resort with the most villainlike, I desire more. This time, I make sure of the amplituded attention of our sate aspecial layor. If that as it may not the more many dependent in mage, and posting to what doesn't remain of the former serving, say, "After amore beed." It make more more beef, please," it would turn out stuffed pigeon, or fricasseed call's feet, if not ice cream. In the same, the more "pigeon" and the least Eoglish the laster there have the first however the images are many degrees more affalic, are better clothed and better fed. These gentlemen are resplement in dark red silks, with pale silk undergarments, and the articles behind their counters—wone definitings, carved tworks, sliks, combered brocked tronsers. We grew very fond of these smiling faced mee, obstitute from latings for the method of the second of the strick, and many I suspect from attiats and artisans in tiny villages far infand, who have banded down the accrets of their craft, from father to son, through generations. But the time vaccing of the word "Chinese" we learned at Canton. This trip to now of the great Celestal cities we are revelation lunder! Certainly we never shall book upon 17 like signific. The more shall book upon 17 like signific. The more shall book upon 17 like signification for the books with the car and dog treat markets where the sith and the care and so the sith of the very small. com The Celterion.-Published by the Senior Middle English Class of Thayer Academy. FROM THE BELFRY.

Like a strip of sifter the river lay lictween the oleadows blown, t stood alone on the helfry's height, Looking down on the distant town.

He lading glow on the western rain Declared the death of the day. The gray dusk deepened into black-Itaskness was on her way.

The winter night came on apace, In the sky a tew stars abone. The bozen breath of the rising wind Came to me on the toner alone.

And I thought of the close of this nortal!
When the closeful daylight ends,
And we ship away into the unknown dack
Whither each human soul tends. In the light of ble out hearts are strong.
And death can give no ilread,
But when the dark of the last long night.
Approaches with steady tread.

I wonder then, if, as the file blood elds, And the sool stands on the laink Of the measureless, infinite, onknown oighthe strength of the licart will sink. And the sool pass studdering out alone fato the gloom of its flight. Like one wandering Tar in the cold and dark Lost, without guidance or light.

But lot a light rises above the east, The massed clouds part and fly, And the silver crescent of the moon Careens against the sky.

At a moment when war and all its afrellances and aspects have we especial interest, no look the first thing turned to in McClure's Magazine for May will be fond-All work called for and delivered free

"What a beautiful specimen of inlaying" xelaimed the guest.
"Yes," replied Mr. Cumtox, compla

Hotel Maiorger (to departing guest)

One pecistent office seeker ventured into the White House the other day, so the story goes, and received this well-method teply from the President: "The norm who feels that he somed wait for a post office analytic state." appointment at a time like this does not eserve the phree, and will and get it."

There was a ldl of the soundest sense in with the remarks of Rev. George Hodges at the named meeting of the Associated Charilles. There is bey much of cateless aling of charity at lack doors by people whose sympathies are callsted by tales of want, or the sight of lusuificient clothing.

"Inner Experiences of a Cabinet Member's Wife," printed in The Ladies' Homn Journal, will be revealed in the June southal, will be revented in the Janua issue of that magazine, when the name of Anna Farquiar will appear as the million. It is surmised that the domestic experien-ces described in these letters were those of Mrs. W. H. H. Miller, wife of the Attorney-General in President Harrison's Cal net—since Miss. Farquian is known to be a personal friend of the Miller family, and to have spent considerable time with them n Washington during their milicial resi lence there. The nutbor of these letters was horn not raised in indianapolis, in neighborly relations with the Harrison and Milier families, but for len years pust she has lived a studious professional life in New York, London and Boston. Sho is ow connected with the editorial staff of The Boston Transcript. In addition to her "Cabluct Member's Wife" letters she has published one novel-"A Singer's Heart"-and amother one is about in he issued. She is a young woman, exceedingly elever, and only for closest friends have known their connection with the Washington letters which have attracted such wide allention.

Disertionly Suja So. Cascoreta Candy Calbartic, the most won-derful medical discovery of the age, pleas-ant and refreshing to the toste, act gently and positively on kbineys, liver and bowels, cleansing the entire system, dispet colds, care headedle, fever, habitual constipation and billomaness.
